

# 4th Grade News

Apr. 3-7

This week we had an early out on Monday, which is really weird to have it then! Otherwise, we had a normal week. Except for confession on Friday. Sunday is Palm Sunday. Which means we are one week away from Easter. Yay! Palm Sunday is when Jesus rode into Jerusalem on a donkey while people laid palms to comfort the hooves of the donkey and waved palms for Jesus. They loved him and glorified him. Are you planning on going to Palm Sunday mass? I am. - JADE

For God did not send the Son into the world to judge the world, but that the world might be saved through Him.... (John 3:17)

In reading we're reading a book called *Amelia and Eleanor Go for a Ride*. It's about two girls that are birds of a feather. One girl is Eleanor Roosevelt, the First Lady, was daring and determined. The other girl, Amelia Earhart

was the same. Amelia drove a plane and Eleanor drove a car. One night Amelia went to the White House for dinner. Amelia suggested she and Eleanor go for a ride in her plane. When they got back reporters asked if she trusted Amelia. She said, "yes". When they were going back to the White House they snuck and went for a drive. When they got back they had dessert. - JOE

In English, we are learning about adverbs. Most of them end in *-ly* like happily, foolishly, and correctly. Adverbs describe a verb, answering the questions how?, when?, and where?. For example: A silly goose talks foolishly and the hare talks boldly. The duck flies above the trees - DRAKE

This week in science, we are learning about why matter matters! Today we might measure matter. Here are some examples. Solid: chair or ice cube. Liquid: milk or gasoline. Gas: helium or carbon dioxide. I love matter! It is so fun!!!! - SOPHIE

In social this week we are learning about the states and capitals of the Midwest. We also have reports on states in the Midwest. We all got to pick a state and we now have to get information on the state we got it on the 20<sup>th</sup> and it is due on the 18<sup>th</sup>. - AXEL

**Spelling**

1. jellybeans
2. chocolates
3. Easter
4. springtime
5. hidden
6. decorate
7. hopping
8. tomb
9. celebration
10. Palm Sunday
11. Passover
12. Last Supper
13. Holy Thursday
14. Good Friday
15. Resurrection

## NEXT WEEK:

- Apr. 14 NO SCHOOL Easter!

## FUTURE:

- MCA Testing
- May 1-3 Audubon Center
- May 6 Spring Blast

This week, we are working on Amelia Earhart reports. She was the first woman to fly across the Atlantic ocean. She has several other records and she married George P. Putnam. She was born on July 24, 1897. She tried to be the first person to travel around the world in a plane, but she disappeared and was never found. - JACOB

In math, this week, we are working on angles. We are using protractors now so we can measure the angles. I know that 90 degrees and under is acute and 180 degrees is exactly straight and 90 degrees and over is obtuse. Mrs. P. taught us a story about the tree bears. Papa Bear was obtuse and Momma Bear was right and Baby Bear was acute. We even created our own angles on a worksheet and then traded worksheets with someone. We measured,

solved their angles, and then corrected to see if they were correct. - LILLY

In religion this week, we worked on the Works of Mercy. There are 14 all together, and the Corporal ones are easy to remember, but the Spiritual ones are a bit harder. We talked about each one, what it means, and how we can do something for each of them. The Spiritual Works of Mercy have to do with one's spirit, or soul. If someone's spirit is down, they will not have the best time; that's why we need to help each other to keep spirits high and happy. We can do this by instructing, comforting, and being patient, to just name a few. We took our test on Thursday, and we all did really well! - BRYAN
