

4th Grade News

Jan. 15-19

This week in Science, we had a test on the tools to measure volume, temperature, weight, and length. We had to complete a different lab for each one. My favorite lab was the weight lab because I liked to see how much things weighed with the balance scale. - **Eli G**

This week in English, we took an NWEA test. We worked on main and helping verbs too. The main verb shows action, and the helping verb tells more about the action. The helping can help tell us if it happened in the past, present, or will happen in the future. Here is an example. The **Vikings** are going to win. Vikings is the subject, are is the helping, and going is the main verb. - **Riley and Ava**

This week in Social we have been working on states and capitals in the Northeast. We also worked in our books. Today, we have a test on the capitals. On Monday, we watched a video on Martin Luther King Jr. because it was his day and his actual

birthday! - **Lexi**

This week in Reading, we read a story called Adelina's Whales. She loves winter, because the gray whales came to the lagoon to have their babies. She thought they were coming to the lagoon just to see her. Scientists believe they come there because it is shallow and warm for the babies to be born and learn to swim. The whales migrate all the way from Russia and Alaska! They travel over 5,000 miles to get to the lagoon of Baja California, Mexico. She loves when the whales come. After we read the story, we researched different whales, and created a poster. Isabel did a report on Orcas, and Sam had Sperm Whale. We also learned about baleen and toothed whales. We love whales! - **Sam and Isabel**

In Math, we learned about triangles and can tell what type of triangles it is by its sides and angles.

Spelling

1. however
2. mountain
3. mound
4. scout
5. shout
6. couch
7. towel
8. ounce
9. coward
10. outdoors
11. flowerpot
12. scowl
13. browse
14. announce
15. hound
16. trout
17. drowsy
18. grouch
19. eyebrow
20. boundary
21. cauliflower
22. foundation
23. surround
24. allowance
25. counselor

NEXT WEEK:

- Jan. 22 NO SCHOOL
 - Jan. 27 Spaghetti Supper
 - Jan. 28 Pancake Breakfast
- FUTURE:
- Jan. 28-Feb. 2 CSW
 - Feb. 4 School Carnival

A triangle is named because of its third angle. If it has one 90 degree angle it is a Right triangle. If it is smaller than 90 degrees, it is an Acute angle. If it is over 90 degrees, it is an Obtuse angle. If it has 3 equal sides, it is an equilateral. Two equal sides means it is an Isosceles, and no equal sides, means it is a scalene. -

Avery and Jameson

We hope the Vikings win this Sunday, and go to the Super-

bow! We can't believe that they are doing so good. We hope we beat the Eagles! We even wore our Viking shirts today to help support them to a win. Let's go VIKINGS! SKOL!!!! - Abby and Eli R.

Catholic Schools Week is coming up. Look for the work list coming home soon.

It will let you know what time and day you are working.

Thanks! - Mrs. P and the 4th Graders

Working on Whale posters

Hot chocolate and cookies

Happy
Birthday
Lexi!
