May 15-19

On Thursday, the fifth graders had their graduation mass. They did all the parts and received their diplomas. We are all going to miss them. - Axel

In Reading this week, we read *The Man Who Went to the Far Side of the Moon*. It was about Neil Armstrong, Buzz Aldrin, and Michael Collins, and their mission to be the first on the moon. Neil and Buzz got to go to the moon, but Michael Collins stayed in the shuttle. When they got back to Earth, they had to stay in quarantine. They watched their mission on TV and said "they missed the whole thing!" It was a good story. - Joe

At the 5th Grade graduation we served muffins and fruit. It was fun. The slide show was good, and they all said a speech. - Jacob

On Tuesday, we tested on NWEA math. Our last computer test of the year. I had hard questions along with everyone else. That means we did great. Your questions get harder if you answered the previous one right. I'm sure everyone got a great score. We all tried to beat our old NWEA math test score. - Jade

This week, in Science we were learning about minerals and rocks. We learned that the diamond is the strongest mineral ever. The only thing that can scratch it is another diamond. If you scratch a rock on a special plate, it will leave a mark. This

mark is called a streak, and all rocks have their own color streak. - Lilly

This week on Tuesday, we had our test in Social. We all did really well. I was so nervous. We worked so hard on the Southwest states. - Sophie

After the 5th graders graduation brunch, we cleaned up and we took the leftover muffins back to our room. We were able to eat the leftovers during our afternoon snack. They were so yummy. - Drake

This week, we went to the preschool graduation on Wednesday. When they were singing, you could tell that my cousin Oscar was not shy. He was really loud. - Bryan
