Sometime sidewalk
Herself football maybe

Review words

Hard more start

Star words

Butterfly anything

Sight Words

Notice happen certain
Vowel pattern

What are we studying?

Reading: We are beginning the book, "Number the Stars" and are doing vocabulary, comprehension and discussion questions that go along with it.

Spelling, Grammar, Writing: Spelling words are listed in the boxes on this page. We have spelling packets to complete during the week, and a final spelling test on Fridays. **Grammar skills** will be worked on in our **guided writing** that we are doing each day, where the students write in journals and confer with the teacher on best practices ...and practice their cursive handwriting at the same time.

Math: We are studying fractions, and should be doing so for most of this quarter. We are learning to find common denominators.

Social Studies: We are studying the Midwest Region of the United States...its geography, climate, natural resources, industries, cities, people, etc.

Science: We are studying extreme weather, such as hurricanes, tornadoes, etc. We are also studying water cycles and weather.

Religion: We continue reading Bible stories. We learn Bible verses, and will journal about how God's word can guide us in our daily lives. We are reading about Jesus' sermon on the Mount, and His teaching the beatitudes. We are learning some of the parables that Jesus told to teach His followers about the Kingdom of God.

Bible Verse of the Week

He says, "Be still and know that I am God; I will be exalted among the nations, I will be exalted in the Earth. "

Psalm 46:10
