### What are we studying?

**Reading:** We are reading the book, "Number the Stars" and are doing vocabulary, comprehension and discussion questions that go along with it. Grammar activities are also part of this book study.

**Spelling, Grammar, Writing:** Spelling words are listed in the boxes on this page. We have spelling packets to complete during the week, and a final spelling test on Fridays. **Grammar skills** will be worked on in our **guided writing** that we are doing each day. We just wrote and sent a letter to our pen pals in Oklahoma.

**Math:** We are studying fractions, and should be doing so for most of this quarter. We are learning to find common denominators, for addition and subtraction of fractions, and we will be dividing fractions.

**Social Studies:** We are studying the Midwest Region of the United States...its geography, climate, natural resources, industries, cities, people, etc. We will be testing on it this week.

**Science:** We are studying extreme weather, such as hurricanes, tornadoes, etc. We are also studying water cycles and weather.

**Religion:** We continue reading Bible stories. We learn Bible verses, and will journal about how God's word can guide us in our daily lives. We are doing a "Journey with Jesus" lap book, which includes 40 events in the life of Jesus, to correspond to the 40 days of Lent. We will learn about the stations of the Cross, and will do them in church.

### Bible Verse of the Week

**"Do not be wise in your own eyes; fear the Lord and shun evil."**

**Proverbs 3:7**
